

LIGHTNING DANGER EXPLAINED TO CHILDREN

By stormy weather it is important :

Don't play outside.

Don't play football.

Don't cycling , skateboarding or rollerblading.

Don't fly a kite.

Don't swim in the ocean or pool, boating , kayaking, sailing or motor boat.

Don't use an umbrella or a parasol including metal.

Don't stay close or sit under the trees for protection from rain . Do not stay near wire fencing.

In the house, don't use a telephone or electrical or electronic devices connected to the network with a wire. Do not take a bath or shower.

By stormy weather you must stay at home or in a car
doors and windows closed.

Game: find the best path to bring lightning to the lightning rod that protects the house.

Many thanks to Guido de Camargo Potier for drawings and the original idea.
